

# Consent Form

- My job is to figure out what techniques help you learn and how you feel about them.
- I am asking your permission to share what I learn with others. Please note:
  - I will present your responses in an anonymous way (no name, student ID etc.)
  - Dr. Stowell will only see your responses in an anonymous way
  - I do not determine any part of your grade
  - If you do not consent, you still have to do all the assignments in the course. I will remove your information before it is shared with others

# Pre-Test

- Please take this seriously!
- You get participation points for taking the pre-test regardless of your answers.
- Please put your name and student ID on the bubble sheet and pre-test.
- **Return the copy of the consent form, test, and bubble sheet to Simone or me.**
